

“60 Years of Atoms for Peace”

In the subsequent 60 years, nuclear technology has achieved tremendous accomplishments while facing persistent controversy. Reflecting the advances of nuclear technology and changing risks, the IAEA's mission has evolved to meet the world's need for an impartial institution dedicated to improving the safe and secure use of all things nuclear.

Ms. Janice Dunn Lee, IAEA Deputy Director General for Management will discuss the current work of the agency.

JANICE DUNN LEE
